# CORE MARKETS

## WE ARE A TIME SENSITIVE TRANSPORTATION COMPANY

Founded in 1998, as a road feeder service to the airline industry, AirTime Express has grown on the principals of delivering time sensitive transportation with first class service for both air and ground cargo.

## CANADA'S LARGEST AIR CARGO CARRIER

Our time sensitive road feeder service to the air cargo industry has seen AirTime Express grow to become Canada's largest full-service air cargo carrier.

Our ability to consistently provide efficient time sensitive transportation to the world's leading air freight carriers and shippers is made possible by our large fleet of asset-based and owner operator equipment, and the dedicated air cargo professionals who keeps them running on time.

## INTRA-WEST CANADA SERVICE

Our Western Canada network is well established with dedicated service for select volume accounts. We help our dedicated customers keep their valuable cargo on the move with expedited transportation throughout the western provinces.

Our key lanes of activity are between Calgary, Edmonton and Vancouver. We supplement that with connecting schedules to Portland, Oregon and the balance of the prairie provinces including Regina, Saskatoon and Winnipeg.

# ADDITIONAL MARKETS

## A COAST TO COAST CANADIAN NETWORK

Our process is simple; when our customers need expedited truckload service with the same care and attention of an airfreight shipment... they call AirTime Express. With a fleet of modern equipment and long-standing carrier partnerships we will expedite your time sensitive truckload shipments coast to coast and always on time.

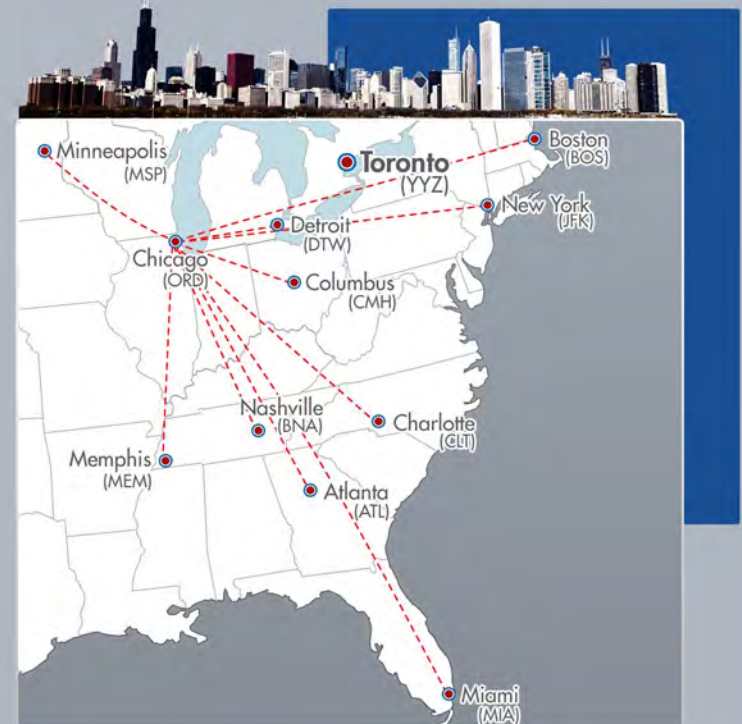

## DAILY TRUCKLOAD AND LTL TO NORTHEASTERN USA

To help with load balance, AirTime Express provides daily cross-border truckload and LTL service to the Northeastern United States. With a focus on next day service between Toronto, Chicago, Boston and New York, shippers can also take advantage of our AirTime Express USA operation for local cartage, road feeder and truckload service within the Northeastern USA.

## CONNECTING THE EASTERN SEABOARD

We have full operating authorities to pick up and deliver your time sensitive cargo within the continental USA. With a road feeder specialization in airport-to-airport truckload shipments, we predominantly serve the U.S. eastern seaboard, with our heaviest concentration in the Northeastern States.

We serve your requirements with a combination of our specialized fleet and partner network. Time sensitive transportation is our specialty and once our word is given, our promises are kept.
